DETAILED ACTION

An amendment of 1/5/05 amended the specification, and claims 5, 12 and 15, and added new claim 21.

Claim 14 is withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 7/19/04.

Applicants request that claims 14 and 15 be rejoined. However, the amendment to claim 15 does not apply to claim 14. The restriction of claim 14 is adhered to and made final.

Claim 15 will be rejoined if written in independent form, and the following rejections are overcome.

Claims examined on the merits are 1-13, 15 and 17-21.

Claim Objections

Claim 15 is objected to because of the following informalities: the claim is dependent on a non-elected claim. Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claim 15 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one

Art Unit: 1651

skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

It is not readily apparent where the specification describes "subsequent or simultaneous addition" to a suspending medium that contains cell material to flocculate microbial cell material as now required by claim 15 in a test method as required by claim 14. The page and lines should be pointed out. If support cannot be established in the specification for claim 15 as now amended, the restriction of claim 15 will not be withdrawn, and the claim will not be rejoined.

Claim Rejections - 35 USC § 112

Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear as to where in claim 14 flocculating of microbial cell material is carried out as required by claim 15. Where in claim 14 is the "suspending medium" required in line 5 of claim 15 to which "subsequent or simultaneous addition" (line 4) is carried out? It is not seen how simultaneous addition can be performed in claim 14 since claim 14 requires two separate steps of adding the first and second polymeric materials, i.e. steps

Art Unit: 1651

ii) and v), respectively, and in step ii) no cells are present in the spent suspending medium to flocculate.

Claims 1-13 and 17-21 are allowed.

Claim 15 is free of the prior art.

This application contains claim 14 drawn to an invention nonelected with traverse in responses of 7/19/04 and 1/5/05. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated

from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
